

| Sr. No. | Product Name              | Photographs                                                                         | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|---------|---------------------------|-------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1       | Solar Mini Light 1        |    | <ul style="list-style-type: none"> <li>Solar panel : 0.3 W/5V Mono Crystalline</li> <li>Battery : 3.2V 400mAh Li fe PO4 Battery</li> <li>Light Source : 0.5W Bright LED</li> <li>Working Time : 4 hrs for High, 8 hrs for Low</li> <li>Charging Time : 8 hrs under sufficient sunlight</li> </ul>                                                                                                                                                                                                            |
| 2       | Solar Lantern 1           |    | <ul style="list-style-type: none"> <li>Solar Panel : 1.7W/5.5V Poly Crystalline</li> <li>Battery : 3.7V/2600mAh Li-ion Battery</li> <li>Light Source : 1W super-bright LED 50,000 hours life</li> <li>Working Time : 7hrs Brightest, 13 hrs Brighter, 32 hrs Bright, 61 hrs Bed Light</li> <li>Charging Time : 8 hrs under sufficient sunlight, 6 hrs by AC Adapter 5V 500mAh capacity only</li> <li>1 usb port for mobile charging</li> </ul>                                                               |
| 3       | Solar lantern 2           |    | <ul style="list-style-type: none"> <li>Solar panel : 2W Poly Crystalline</li> <li>Battery : 3.7V/4800mAh Li-ion Battery</li> <li>Light Source : 12pc 2 Watt LED</li> <li>Working Time : 9 hrs for high mode, 20 hrs for medium, 66 hrs for low</li> <li>Charging Time : 12 hrs under sufficient sunlight, 10 hrs by micro usb 5V 500mAh capacity only</li> <li>1 usb port for mobile charging and 1 micro usb port to charge lantern</li> </ul>                                                              |
| 4       | Solar Torch 2             |    | <ul style="list-style-type: none"> <li>Solar Panel : 0.2 W Poly crystalline Panel</li> <li>Battery : 3.7 V/250 mAh LiFe PO4 battery</li> <li>LED : 0.5W bright LED (42 Lumen)</li> <li>It has 2 modes flashlight mode &amp; reading mode</li> <li>Working Time on flashlight mode : 2 hours &amp; on reading mode : 4 hours</li> <li>Charging Time by sun : 5 hours &amp; by micro USB 5V 500mAh capacity only : 3 to 4 hours</li> </ul>                                                                     |
| 5       | Solar Home Lighting Kit 3 |  | <ul style="list-style-type: none"> <li>Solar panel : 11V/ 4W Poly Crystalline</li> <li>Battery : 7.4V/5200 mAh Li-ion battery</li> <li>LED : 3 x 1W LED bulbs</li> <li>Working Time : 25 hrs for 1 bulb, 12 hrs for 2 bulbs, 9 hrs for 3 bulbs</li> <li>Charging Time : 14-16 hrs under sufficient sunlight, 10-11 hrs by AC adapter 9V 500mAh capacity only</li> <li>1 usb port for mobile charging</li> </ul>                                                                                              |
| 6       | Solar Home Lighting Kit 5 |  | <ul style="list-style-type: none"> <li>Solar panel : 11V/ 8W Poly Crystalline</li> <li>Battery : 7.4V/5200 mAh Li-ion battery</li> <li>LED : 1 x 2W LED bulb + 2 x 3W LED tube lights</li> <li>Working Time : 16 hrs for 1 bulb, 10 hrs for 1 TL, 5 hrs for 2 TLs, 4 hrs for 1 bulb &amp; 2 TLs</li> <li>Charging Time : 6-8 hrs under sufficient sunlight, 10-11 hrs by AC adapter 9V 500mAh capacity only</li> <li>1 usb port for mobile charging</li> </ul>                                               |
| 7       | Solar Inflatable Light 2  |  | <ul style="list-style-type: none"> <li>Push Button for TURBO, High, Medium, Low, and Flashing settings</li> <li>3-5 Hours LED light on TURBO setting - 75 Lumens, 18-24 Hours LED light on Low setting, Multiple Days of light on Flashing setting</li> <li>4 LED battery indicators.</li> <li>Recharges in 10 hours of direct sunlight or 1-2 hours by USB 5V 500mAh capacity only</li> <li>Comes with adjustable strap for hanging.</li> <li>Waterproof up to 1 meter deep and can float (IP67)</li> </ul> |
| 8       | Solar Inflatable Light 2S |  | <ul style="list-style-type: none"> <li>Push button for 9 modes. Includes 7 distinct color modes, a white LED mode, and multi-color fade</li> <li>Recharges in approximately 10 hours of direct outdoor sunlight or 1-2 hours by USB Input 5V 500mAh capacity only</li> <li>Lithium-Polymer Ion battery with hundreds of recharge cycles</li> <li>Waterproof up to 1 meter deep and can float (IP67)</li> </ul>                                                                                               |
| 9       | Solar Inflatable Light 3  |  | <ul style="list-style-type: none"> <li>Push Button for TURBO, High, Medium, Low, and Flashing settings</li> <li>150 lumen output on Turbo mode for 3-5 hours</li> <li>50 hour max run time on Low Mode</li> <li>1-2 hours by micro USB 5V 500mAh capacity only or 14 hours in direct sunlight</li> <li>5V USB output port with a fast charging output of 2.4 Amps</li> <li>Built-in 2000 mAh battery</li> <li>It's waterproof, floats, and can be submerged up to 1 meter deep (IP67)</li> </ul>             |
