

# PARABRAKSH

SOLAR POWERED ANIMAL DETERRENT LIGHT

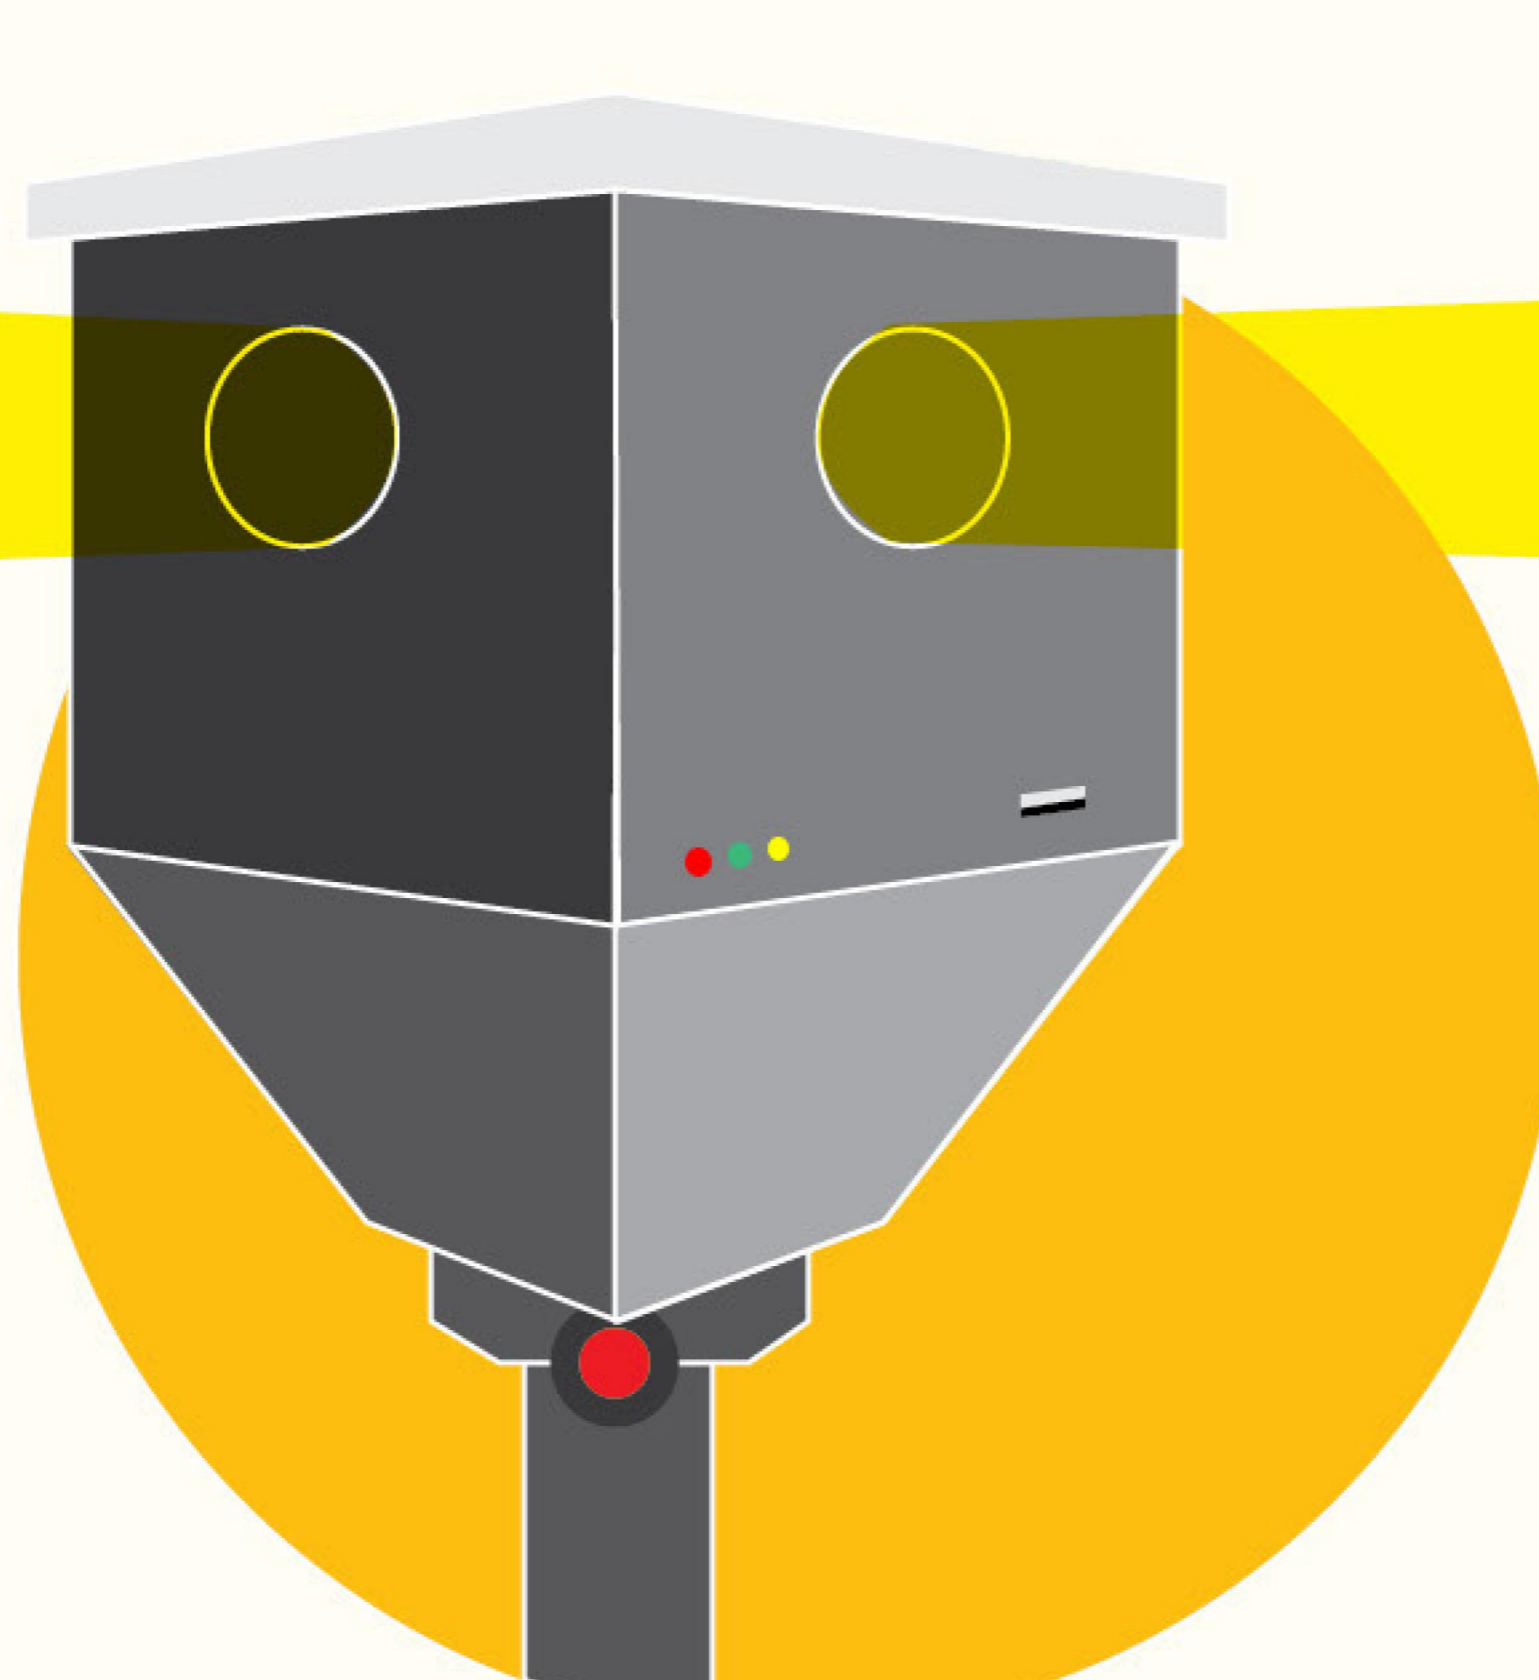

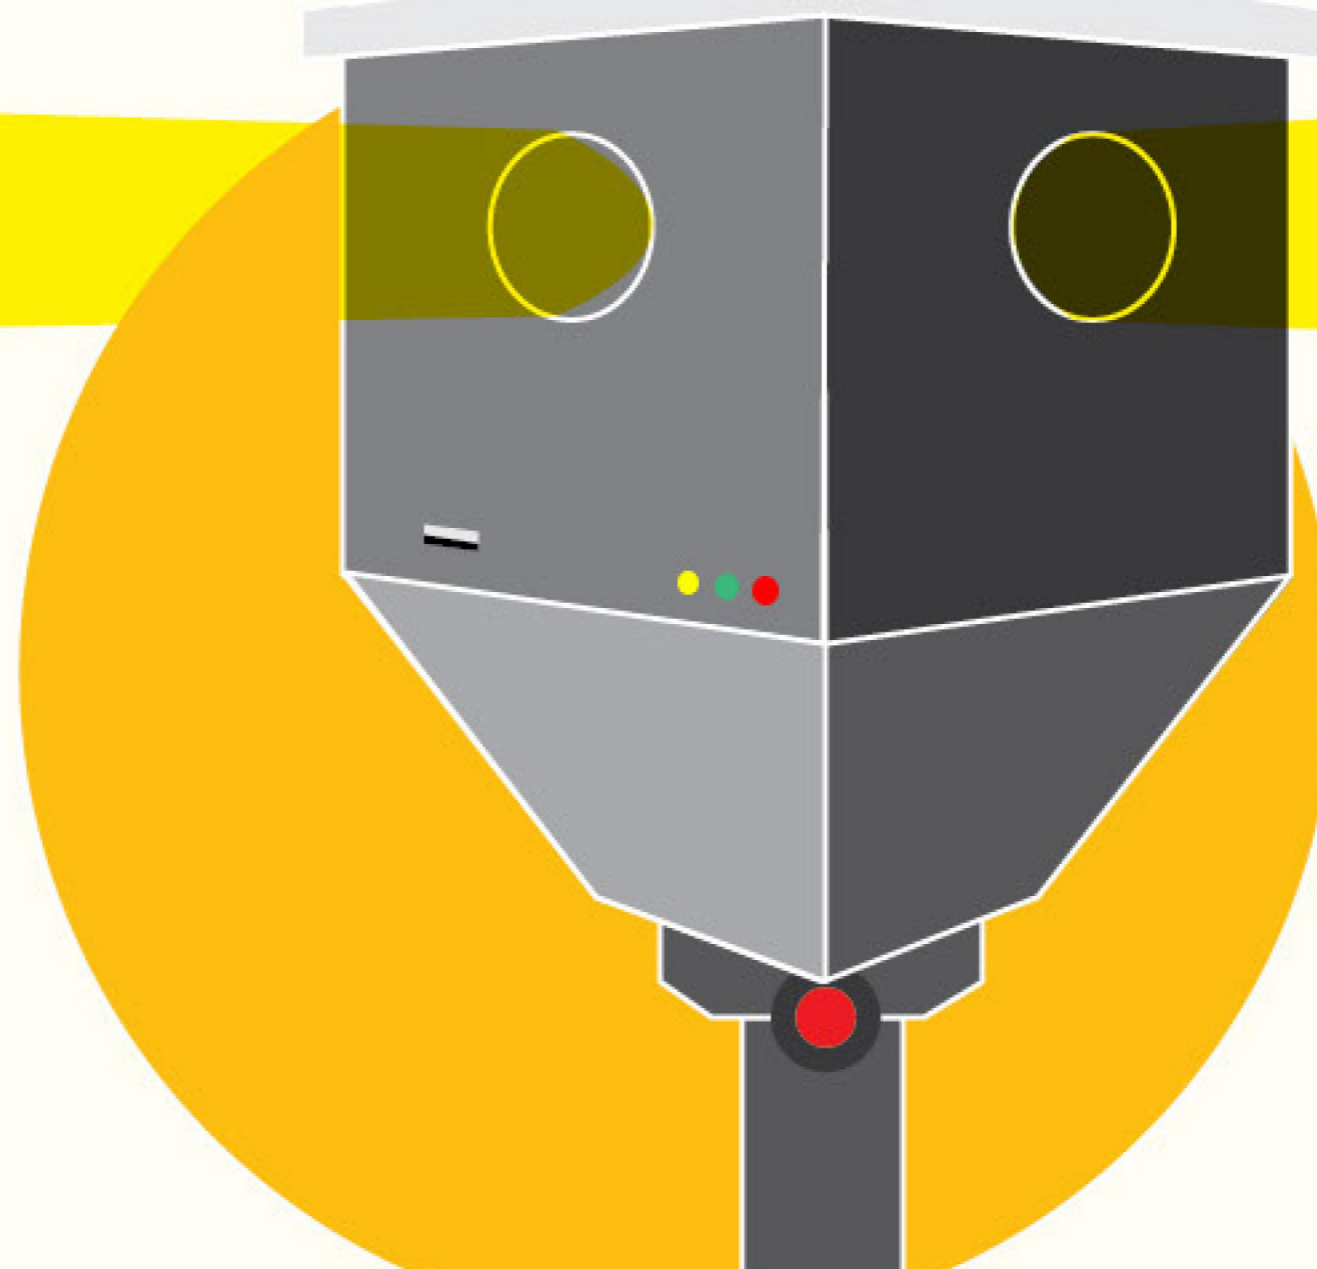

## PROBLEM

Predator attacks on cattlestock, agricultural lands, food industries and farmhouses resulting in huge financial losses that often lead to man-animal conflict.

## SOLUTION

Parabraksh is a Solar Powered Animal Deterrent Light that has the LED's programmed to flash in a random pattern.

- Solar powered battery that will automatically switch on at the fall of light i.e. night and switches off during the day.
- Extremely easy to use and handle.
- Protects Gardens, Livestock, Agricultural lands, Farmhouses, Campsites and much more.
- All weatherproof.
- Researched, Designed, Engineered and Build to Perfection.

## HOW TO USE?

- Switch on the light for the first time.
- Install it in the field at a strategic location. For better effective use, mount it on a Wooden or a steel pole.
- Leave it to work automatically sensing day/night.

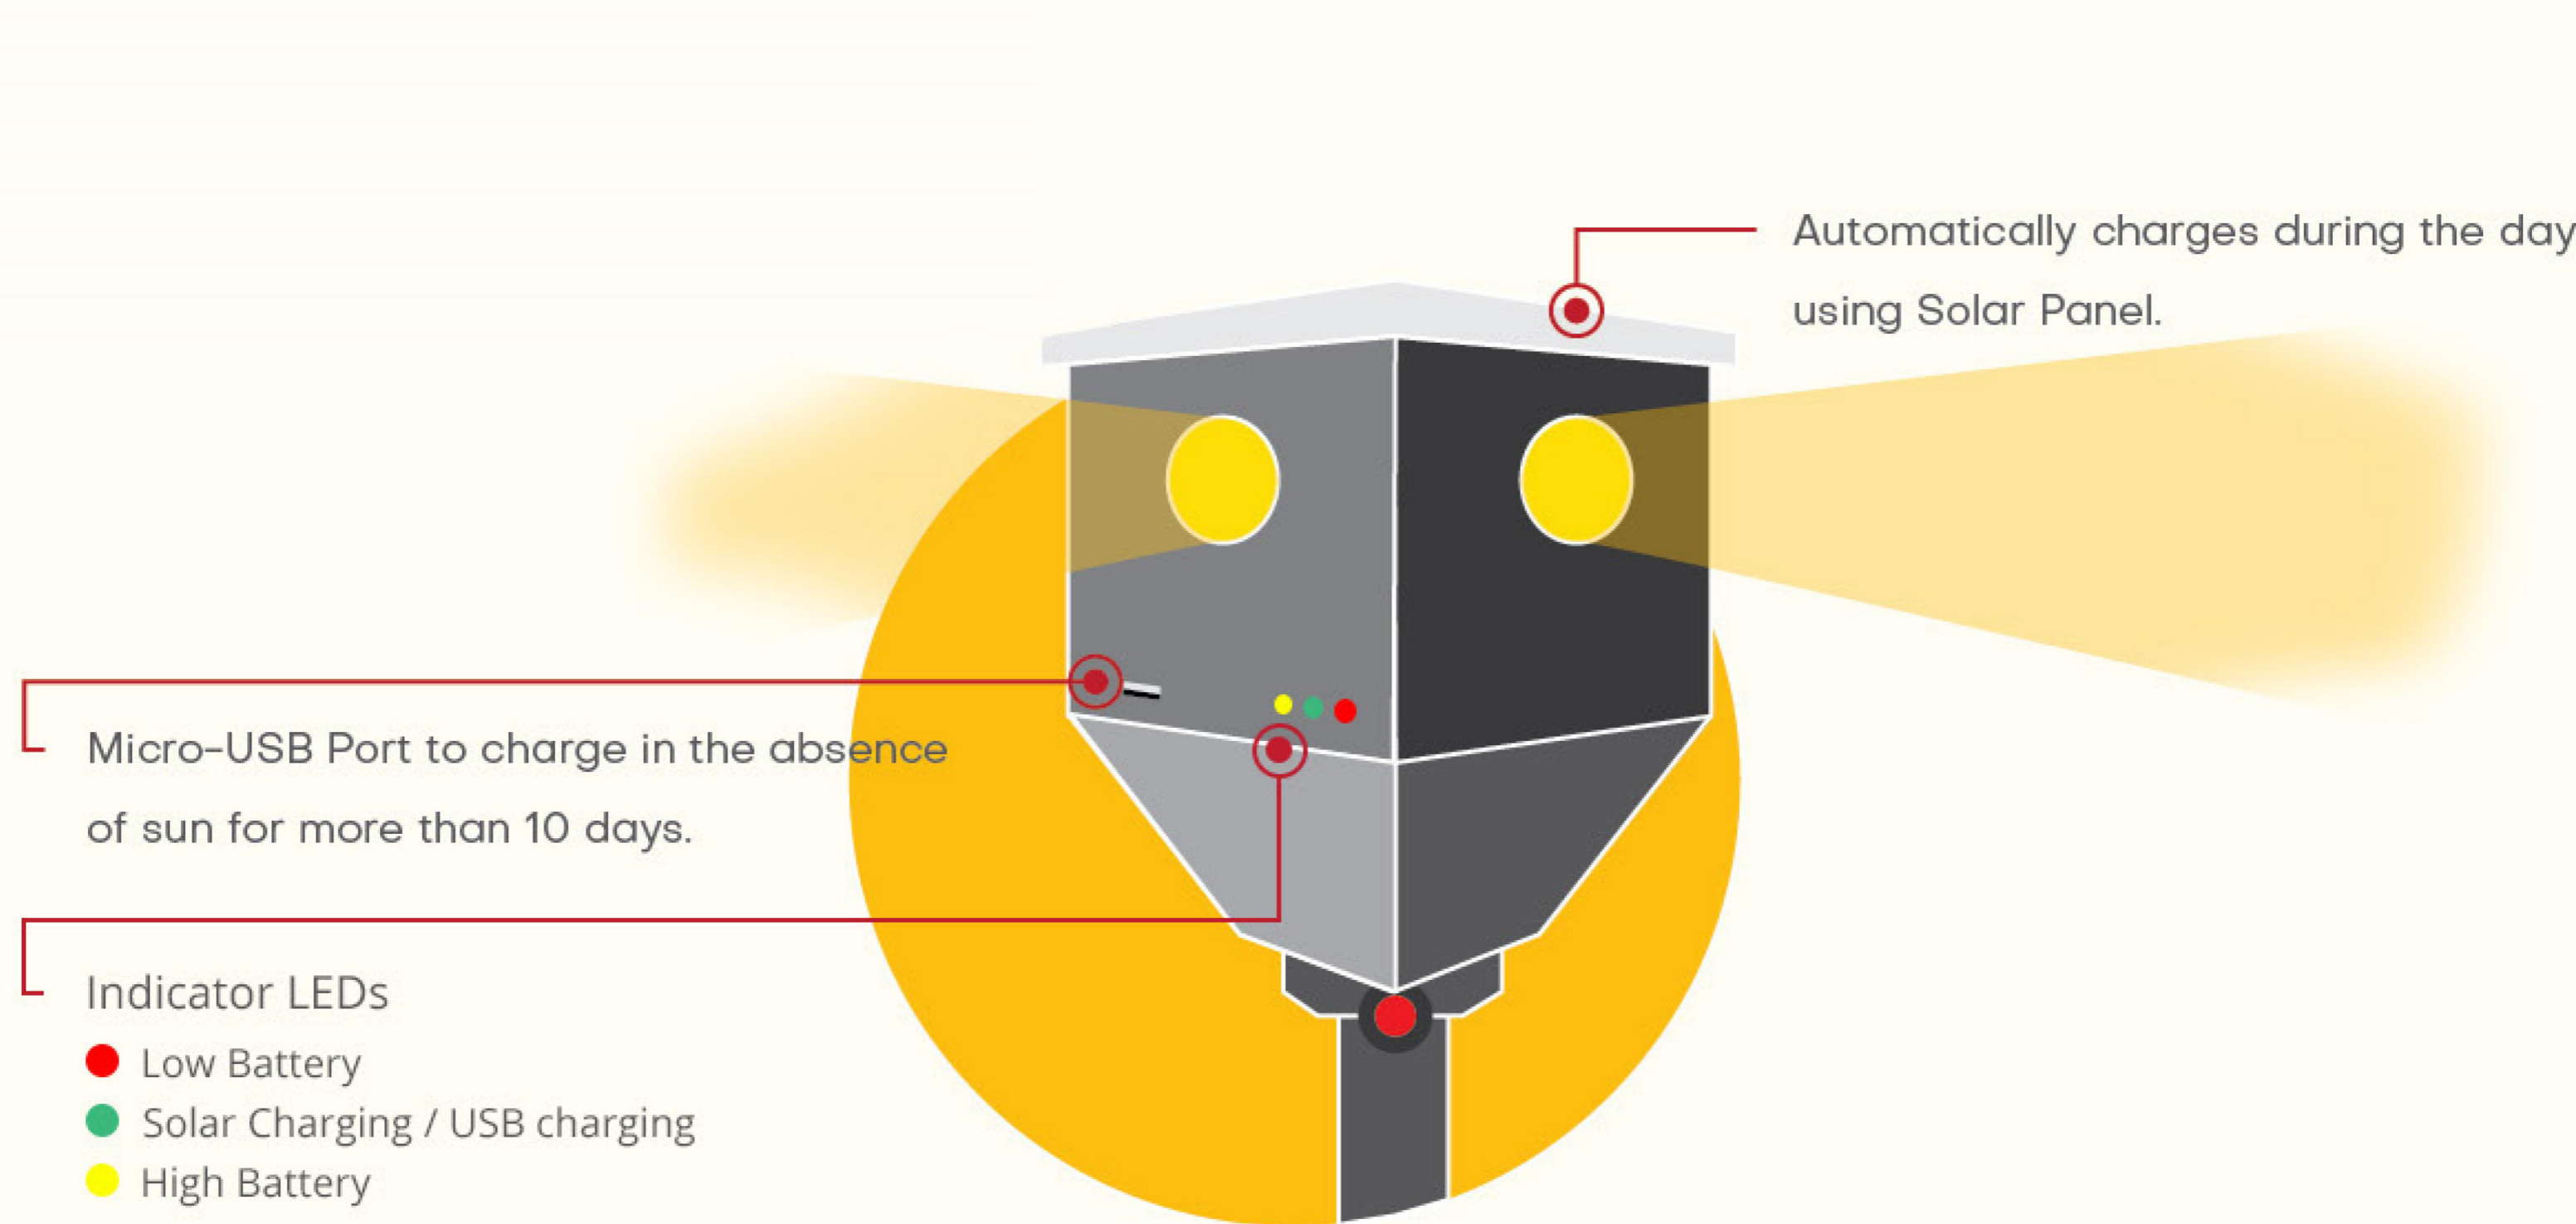

## PARABRAKSH FEATURES

- Dual Charging mechanism with solar and Micro-USB.
- 4 Powerful LED's offering a 360 degree protection.
- Added Reflectors to increase the range of the LED's.
- Green Environment friendly Lithium Chemistry batteries.
- Can be mounted to any tree or pole.
- Random lighting pattern to scare/confuse the predators.
- Custom insulation provided to help it sustain any extreme temperature conditions.

## TECHNICAL FEATURES

Product Dimensions : 10.5 x 10.5 x 22cm.  
 LED : 1W  
 No.of LED's : 4  
 Angular Range of each LED : -120 degree to +120 degree  
 Waterproof : Yes  
 Operating Temperatures: -40 to +60 degree C  
 Charging Time: 5-6hours.

## CHARGING

## OTHER INFORMATION

- Parabraksh has been built based on scientific research to reduce the man-animal conflict.
- It can widely be used for Agricultural and Wildlife sectors.
